

TERMLY NEWSLETTER: Sep - Dec 2023

Dear Parent/Guardian/Sponsor,

Greetings to you our dear Parents/Guardians/Sponsors. We thank our Almighty God for enabling us to have a successful term. I thank you all for the support you have given to the College and more so to your sons/daughters as they undertook their training.

TERMS DATES

Next term's reporting date for all continuing trainees is on **11th January 2024**. The reporting date for **January 2024 Intake** trainees is from **8th January 2024**. Kindly note that the State Department may review the Term Dates from time to time.

This term comes to an end on **1st December 2023**. The students not sitting November-December 2023 KNEC examination are expected to proceed for break on **10th November 2023** after completing end-of-term exams.

FEES AND FEE ARREARS

The Management of the College is requesting all parents/guardians/sponsors to keep their promise and pay the amount they owe the College before **29th December 2023** to enable your son/daughter have a successful training in the College. Also, encourage your son or daughter to apply for CDF, County Government or any other bursaries to help facilitate their smooth learning. Similarly, the government owes the college students capitation fees arrears. A number of students do not also apply for HELB loans and bursaries. Consequently parents/guardians are advised to clear outstanding fees arrears by the said date, **December 29th, 2023**.

Each student is expected to collect their financial advice sheet from the accountant before proceeding home. Please peruse them and pay next term's fees and arrears to - **EQUITY BANK – CHUKA BRANCH A/CC**
Name: Chuka Technical and Vocational College A/CC. NO: 0140262845461. Insist on being given the official receipt as proof that your son/daughter has paid the fees. You can also pay fees through **PAYBILL** using **Business Number 247247 Account Number 222990**. There are incidences where students use fees for personal issues and drop out of school when sent for fees. Parents/guardians are advised to follow up with their sons/daughters or the institution to confirm fees payment.

JANUARY 2024 INTAKE

Kindly find time and login to our website (www.chukatechnicalcollege.ac.ke) to find our courses and refer students to join us. Please pass the information around and assist us to market the College. Currently the GoK is giving every Kenyan student (Continuing students, apart from September 2023 intake cohort) school fees capitation of **Ksh. 30,000** per year. The rest of the fees shall be catered for by HELB loans or parents/guardians. Under the new **Higher Education Funding Model** that commenced implementation with September 2023 intake students, the government will fully fund the vulnerable students who include those living with disabilities, where they will receive 80 per cent scholarships and 20 per cent loans.

The neediest students will receive 70 per cent scholarships and 30 per cent loans. The third category of needy students will receive 50 per cent scholarships, 30 per cent loans and 20 per cent of their fees will be met by their families. The last category of the less needy students will receive 32 per cent scholarships, 48

per cent loans while their households will pay the remaining 20 per cent of the fees. Kindly be notified of this new development and spread the information to all the potential students so that they can benefit. If you need Government financial support, you **MUST** make an application for consideration through the official website www.hef.co.ke. In case the Government Scholarship, Loan and Bursary do not cover the entire cost of your programme, the deficit will be met by your parent/guardian. Apply for funding before the deadline or reach out to the college for assistance in carrying out the application process.

HELB LOANS/BURSARIES

The HELB Loans applications for TVET is regularly on and parents can pay a portion of fees and apply for the HELB loans. Continuing students (other than September 2023 intake cohort) are expected to apply for HELB Loans as before. September 2023 intake cohort and those joining in January 2024 are advised to ensure they apply for GoK financing under the new model. Occasionally there are delays in disbursement of HELB Loans and Bursaries. Nevertheless, we continue serving our trainees on a promise that such allocation would eventually be disbursed so as to ease fees burden. Parents should encourage their sons and daughters to use the loan facility to clear their fees balances. Alternatively such fees shall be cleared by parents/guardians.

INDUSTRIAL ATTACHMENT

Every student is expected to proceed for a three months' industrial attachment after every KNEC examination to enable them fully actualize the concepts learnt in class. Encourage your son or daughter to use this period appropriately to make them more competitive in the job market. Those who miss to be attached must proceed for the same in the following term. **Logbook** and **attachment introduction letter** can be downloaded from college MIS.

END OF TERM (SEPT-DEC 2023) EXAMINATION RESULTS

The students did their end of term/stage examination and their results are available online for collection/printing as from **20th December 2023**. Registered students can access and download their results from **Intellimis.com** online system by logging in through 'Student Login.' Discuss the results with the student and where necessary the parent can visit the College to discuss the same with the concerned trainers. Supplementary exams are usually administered in the first days of opening. Students must therefore ascertain their results **BEFORE OPENING** to determine whether they have any supplementary exams or not. The students who fail to sit supplementary exams will have no course work marks to be sent to KNEC.

DISCIPLINE

Discipline is the key to success and it is important that we guide the students and advise them on friends they interact with while out of college premises. Students are required to dress decently. We are concerned that some students absent themselves without valid reasons. Some students are even absenting themselves during examinations. It is important to note that examining bodies have minimum requirements for class attendance and if this is not met the student shall not be registered for exams. Parents should follow up and give information to the College in case a student is unable to attend classes.

Absenteeism without permission shall be treated as a case of indiscipline.

All students who fail to sit any examinations **WITHOUT A WRITTEN GOOD REASON before exams** are not allowed to proceed to the next stage and shall pay Khs. 1000/- for administration of the special exams in place of the missed papers. One must also attend at least 75% of all classes in order to be allowed to sit exams. On the same note, students who fail to attain the set pass-mark must sit supplementary exams.

HOSTELS AND MEALS

The College makes arrangements for hostels with the stakeholders every term so as to guarantee accommodation to all our trainees. As a parent, you are advised to get information where your son or daughter is residing. Students of opposite gender are disallowed to reside in common premises. The College has also negotiated with stakeholders to provide meals for the students at affordable rates. There is a Pay-As-You Eat (PAYE) catering service programme inside the college offering essential catering services, first and foremost to students, college employees, college guests and walk-in-visitors, which provides meals across the week. The dining hall is open for three meals per day at subsidized and affordable pocket-friendly prices. The Menus are diverse and flexible to match your preferences. You are advised to provide your sons/daughter with funds to finance their meals.

REGISTRATION OF KNEC EXAMINATION FOR MARCH 2024 SERIES

All CANDIDATES who are expected to sit for **March 2024 KNEC Examination** series are required to pay examination fees by **15th December 2023** to facilitate registration and avoid frustration of being locked out. No sending of exam registration documents via social media or any other person. Candidates are required to deliver exam registration documents in person and sign delivery sheet in the Examinations Office once cleared by respective offices. Those sitting KNEC exam in the following term should have with them ALL copies of exam registration documents in good time to avoid frustrations. The KNEC fees for various courses is as follows:
